## DISCONNECT PROCEDURES FOR SEWER SERVICE FOR HOUSE RAISING AND DEMOLITIONS

If you are having a house raised and/or demolished, the sewer service must be temporarily disconnected. The Atlantic City Sewerage Company (ACSC) will disconnect your service lateral at the service box to prevent debris from entering the sewerage system during the construction/demolition progress. **This can only be accomplished after completion of this form, and receipt of proof that the Atlantic City Municipal Utilities Authority (ACMUA) has removed the meter at property.**

After receiving the necessary permits from the City of Atlantic City, your contractor is responsible for disconnecting and reconnecting the sewer lateral on the "house side" of the service box.

**Once the water meter is reset at the property, you must again submit proof to our office from the ACMUA in order to reconnect the sewer service.**

**\*Failure to do this could result in a sewerage backup into the property. It is understood that if this isn't complied with, the ACSC holds no responsibility in what damages may be incurred at the property. If the customer fails to comply with the completion portion outlined above, the fixed charge credit will not be applied to the account for the time the meter was not in service.**
